Two-In-One

Control

Benefits

Elegant

Benefits Of Blackout Curtains

- Blackout Curtains offer excellent light control, privacy, and reduced outside noise levels, giving you full control over your environment based on the occasion and your mood.
- These curtains can preserve up to 20% of your home's total heat by creating a trapped layer of air between the fabric and the window, which forms an insulating air pocket.
- Studies show that curtains made from blackout fabric can decrease heat gains by 33%.
- You can choose from a range of coated fabrics or an uncoated fabric with an attached lining.

Light Control

- First choice product for blackout of light.
- Room darkening.
- Complete privacy.
- UV protection for interiors.
- Ideal for bedrooms.

Insulation

- Best for insulation all year round.
- Savings on energy bills.
- Reduction in outside noise levels.
- Lining fabric creates a layer of trapped air.
- This layer provides further insulation.
- Adding pelmets provides the best insulation.
- They work by trapping air from both the inside and the outside.

Long-Term Investment

- This makes them more durable and long-lasting.
- They save money in the long run by reducing the need for frequent replacements or repairs.
- Made-to-measure curtains ensure a snug fit for windows and doors.
- A perfect fit improves insulation in your home.
- Better insulation leads to a more energy-efficient home.
- Energy efficiency translates into savings on energy bills.

Curtains + Complimentary Making

- A range of high-quality and affordable uncoated and coated curtain fabrics.
- Select from our Curtains+ complimentary making range and pay no additional making costs.
- Borrow a sample of your chosen fabric and try it at home.

- We offer full curtain lengths so you can take them home and hang them up.
- Since colors can vary in different lights, it's important to test them.
- Our full-length curtain samples let you see how the fabric looks in your home during the day.
- They also show you how it looks in the evening.

Benefits Of Sheer Curtain

- New operating options make Sheer Curtains easy to use.
- No more struggling to pull heavy curtains — a flick of a wand lets them glide smoothly side to side.
- Float delicately across windows, diffusing sunlight and softening your home.
- Dramatically transform any space.
- Enhance room ambience by adding movement, warmth, and texture.
- Provide gentle daytime sun protection.

Key Advantages

- Diffused natural light
- Adds daytime privacy
- Hides unsightly views
- Daytime sun protection
- Adds softness, warmth, movement, and texture

Easy Operation

- Our new operating options make them simple to use.
- No more pulling heavy curtains back and forth.
- With a flick of a wand, your sheer curtains glide smoothly from side to side.
- Minimal effort is required to operate them.

Layering

- Layering Sheer Curtains is important for privacy + light control.
- Layer our Sheer Curtains over Roller Blinds, Roman Blinds or Shutters to allow for night-time privacy + light blackout.
- For the ideal combination, team Sheer + Blackout Curtains together.
- Pair them with our Double Curtains – cue next page!

The Wave

- Neat + modern curtain heading style for a designer finish.
- Easy to operate with our wand control.
- Can be selected for both sheer + solid fabrics for layering + consistency across rooms.
- Use for a double curtain.

Benefits Of DoubleCurtain

- Our Double Curtains combine our Blockout and Sheer Curtains together on the one window for a well-designed and practical finish.
- Combines Blockout + Sheer Curtains on one window for a stylish, practical finish.
- Daytime: open Blockout, keep Sheer closed for soft light + privacy.
- Nighttime: close Blockout for full light control, privacy, thermal + noise insulation.
- The best investment — double the function, double the style.

Two In One

- Combine two curtains in one.
- Enjoy the benefits of a Sheer Curtain combined with a Blackout Curtain.
- Control of each curtain is separate.
- Get window views and diffused light during the day with privacy and darkness at night.
- Two-in-one solution (Sheer for day, Blackout for night)

Energy Efficiency

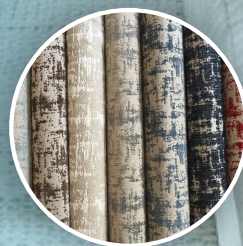

- Double insulation helps regulate indoor temperature.
- Keeps rooms cooler in summer and warmer in winter.
- Reduces the need for heating and cooling.
- Saves on energy bills with improved insulation all year round.

Choose Fabric

Why Our Fabrics

- UAE's largest fabric + colour range
- Trusted, market-leading brands
- Quality Australian-made fabrics
- Thermal insulation (saves money on energy bills)
- Coordinating Curtain + Blind ranges
- Standard 100 Certified → safe, eco-friendly
- Flame retardant, lead & PVC free

HS Designs Fabrics

- Our own ranges = no hidden costs, more savings for you.
- Standard 100 Certified fabrics for extra peace of mind.
- Bulk buying = lower prices + minimal waiting time.
- High quality, designed + tested to withstand harsh climates.
- Coordinating Curtain + Blind ranges
- On-trend, exclusive fabrics.
- Wide variety of styles to suit every home.

Fabric Types

Sheer

Coated

Coated

Uncoated

Sheer Fabric

- Translucent and light filtering
- Ideal for layering with blackout or heavier curtains
- Ideal for daytime privacy
- Add softness and elegance to a room
- Beautiful to layer with heavier fabrics
- Can be combined with lining fabrics for night-time privacy and light control
- Creates a seamless link between indoor and outdoor spaces
- Provides daytime privacy without blocking natural light

Coated Fabric

- Effectively blocks out light
- No additional lining fabric required
- Provides privacy and room darkening
- Helps reduce heat and outside noise
- Durable and easy to maintain
- Fabrics have a special coating applied to one side
- Available in a range of colors and finishes
- Offers long-lasting performance
- Ideal for bedrooms, media rooms, and spaces needing full darkness

Uncoated Fabric

- Tightly woven fabrics without any coating
- Require lining fabric to be layered underneath
- Offer flexibility in fabric and lining combinations
- Available in a wide range of textures, colors, and patterns
- Ideal for achieving both style and function through layering
- Provide higher insulation and light control than Sheer fabrics
- Long-lasting and versatile choice for custom curtain designs

Lining Fabric

- Plain fabrics with a durable coating applied to one side
- Usually layered behind a Sheer or Uncoated fabric
- Proudly Australian Made (HomeShades lining)
- Blocks out light and improves privacy
- Adds thermal and noise insulation
- Protects front curtain fabric and interiors from sun damage
- Ensures curtains have a beautiful drape and finish
- Enhances the overall longevity and performance of your curtains

Fabric + Curtain Care Tips

- Curtains are very low maintenance and easy to keep clean.
- Regular dusting and vacuuming is recommended to maintain and preserve their lifespan.
- Always refer to the care label instructions supplied with every curtain.
- Using a high-quality lining fabric extends the life of your curtains.
- It also provides insulation and protects interiors from sun damage.
- Invest in Sheer Curtains that remain closed during the day to reduce sun effects.

Select Heading Style

- Choose from modern wave, pleated, or pencil fold designs.
- Create a neat + tailored finish to match your interior.
- Enhances the overall look of your curtains and space.
- Options available for both sheer + blackout fabrics.
- Easy to operate and maintain.
- Designed for a premium, designer-quality finish.
- Versatile styles to suit both classic and contemporary homes.
- Adds a personalized touch to every window.

Heading Style

Wave Fold

Eyelet

Knife Pleat

Regis + Maxi

Pinch Pleat

Double Pleat

Reverse Pleat

Wave Fold

- Creates a soft, flowing, and elegant finish
- Ideal for contemporary and minimalist interiors
- Enhances the sense of space with uniform folds
- Works beautifully with sheer and lightweight fabrics
- Provides neat stacking when open, maximizing window views
- Compatible with corded, motorized, or wand control systems
- Offers a clean ceiling-to-floor drape for a luxurious effect
- Perfect for large windows, sliding doors, or wall-to-wall installations

Eyelet

- Casual and contemporary curtain style
- Creates wide, even folds with a modern finish
- Easy to open and close with a simple hand pull
- Best suited for lightweight to medium-weight fabrics
- Ideal for everyday living spaces, bedrooms, and family rooms
- Offers a relaxed, informal look compared to structured pleats
- Pairs well with decorative rods for a stylish accent
- Low-maintenance and durable heading style

Knife Pleat

- Tailored and structured curtain style
- Cord-free and child-safe option available
- Ideal for medium to heavy fabrics
- Compatible with both rod and track systems
- Offers a sophisticated finish for living rooms, dining rooms, and bedrooms
- Offers a relaxed, informal look compared to structured pleats
- Enhances fabric fullness, adding depth and texture to any room
- Maintains its crisp, polished look over time with minimal maintenance

Regis + Maxi

- Modern, versatile curtain heading style
- Designed for both lightweight and heavy fabrics
- Offers smooth, tailored folds for a sleek appearance
- Enhances the sense of height and space in a room
- Compatible with both rod and track systems
- Easy to operate, with neat stacking when drawn
- Perfect for living rooms, bedrooms, and formal spaces
- Ideal for large windows, sliding doors, or wall-to-wall installations

Pinch Pleat

- Classic and elegant curtain heading style
- Pleats are pinched together at the top for a tailored, structured look
- Double or triple pleats create added fullness and luxurious drape
- Ideal for medium to heavy fabrics
- Suitable for formal and traditional interiors
- Compatible with both rod and track systems
- Adds depth, texture, and sophistication to any room
- Maintains its structured look over time with minimal maintenance

Double Pleat

- Adds fullness and luxurious drape to curtains
- Ideal for medium to heavy fabrics
- Suitable for both traditional and contemporary interiors
- Compatible with rod and track systems
- Enhances depth, texture, and sophistication in any room
- Provides a polished, high-end finish for living rooms, dining rooms, and bedrooms
- Maintains its crisp, structured look over time
- Perfect for layering with sheers or linings for added versatility

Reverse Pleat

- Contemporary, cord-free curtain heading style
- Pleats face inward toward the center of the curtain
- Creates a sleek, modern appearance with minimal hardware visible
- Ideal for medium to heavy fabrics
- Perfect for both formal and modern interiors
- Compatible with rod and track systems
- Adds depth, texture, and elegance to any space
- Provides a clean, polished look for living rooms, bedrooms, and offices

Curtain Installation Options

Width

- Opt for wall to wall (or as wide as you can go!) if there is wall space available.
- This means when drawn open the 'stack back' as we call it covers less of the window.
- Maximise your views and natural light entering into your home.
- where possible go high and wide!
- This Highlights The Height In The Space.
- Drawing The Eye Up.
- Making The Room Appear Much Larger Than It Actually Is.

Height

- Install is either ceiling fit or face (wall) fit.
- Best option: ceiling to floor (or as high as you can go!) if there is wall space.
- Adds the illusion of height to windows and rooms.
- improves blackout of light and increases insulation.

Length

- Curtain length depends on your preference.
- As our Curtains are custom made, we handcraft them to all lengths.
- Recommended: Go past the window sill to the floor for light control.
- Privacy, and insulation.
- Unless installed above a breakfast nook or bench seat.

Length Styles

The Float

The Kiss

The Puddle

The Float

- fabric finishes above floor
- soft + tailored drape
- durable for high traffic areas
- easy to keep clean

The Kiss

- contemporary look
- modern take on the puddle
- fabric finishes approx. 1–2 cm on floor
- above photo: approx. 1 cm on floor

The Puddle

- best for low traffic areas
- above photo: approx. 10 cm on floor
- not recommended for coated fabrics
- fabric finishes 10 cm+ on floor for an opulent look

Stacking

- centre opening → curtains stack on both sides when drawn open.
- one-way opening → curtains stack to one side (left or right).
- free-floating → curtains can be drawn to any position on the track or rod.
- customization → choice depends on practicality and functionality for each window.

Important Notes

- curtain lengths are not exact due to fabric shrinkage.
- different fabrics hang differently in length and shape.
- fabrics may shrink or expand by 3% or more from temperature and humidity.

Select Tracking

- Tracks complete the look of your curtains.
- Standard tracking is crafted from high-quality, powder-coated aluminium.
- Our made-to-measure tracks allow us to custom fit any size and shape of window.
- **Mounting Options:** Can be mounted onto ceilings, arcs, or walls, offering great flexibility.
- **Single Track** – simple, sleek solution.
- **Double Track** – allows layering of Sheer Curtains beneath Blockout Curtains (or vice versa), boosting insulation and enhancing design aesthetics.

Custom Designs

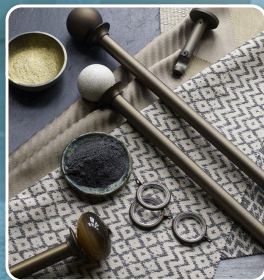

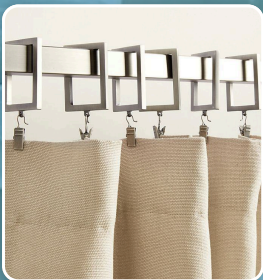

- bent and curved tracks – designed to fit around corners, custom-made to size and shape.

Decorator Options

- opt for decorator rods for a more stylish look.
- add rings (to help curtains easily open and close) and finials (decorative end pieces) to customise your style.

Designer 25mm Tracked Rod

- adds a sleek and stylish finish.
- can be paired with rings and finials for customization.

Decorator Rods

25mm Decorator Tracked Rods

- paired with finials or end caps.
- not recommended for coated fabrics
- provided with runners (acts as a track).
- use with pinch pleat, knife pleat, reverse pleat, and other pleated styles.

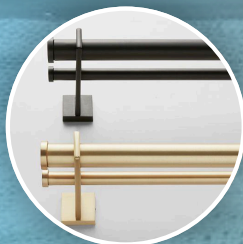

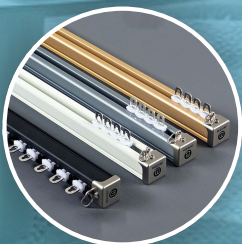

29mm Decorator Rods

- can also be used without rings (eyelet style).
- paired with round finials or end caps.
- hand-drawn operation.
- use with rings for pinch pleat, knife pleat, reverse pleat + other pleated styles.

38mm Decorator Tracked Rods

- reeded or plain finish.
- paired with finials or end caps.
- cord or hand-drawn operation.
- supplied with rings or runners (acts as a track).

Control Type

Hand Drawn

- child & pet safe
- highly adaptable
- flexible for large window configurations
- options: centre open, one-way open, or free draw
- add wands (various sizes) for easy operation & fabric protection
- low-maintenance system with long-lasting durability
- cost-effective solution compared to cord or motorised systems

Cord Drawn

- options: centre open or one-way open
- ideal for large/heavy windows
- easy operation with secured cords (child & pet safe)
- improves stack back when curtains are drawn open (maximises natural light & views)

Motorised

- child & pet safe
- control one curtain individually or multiple as a group (single remote)
- operate from anywhere (smartphone app: ios/android, or voice control)
- battery-operated or hard-wired motors
- suitable for tall/difficult-to-reach windows
- manual override available in case of power failure
- effortless operation for heavy curtains

Accessories

Why Our Pelmets

- increase insulation + save on power bills
- improve light control
- conceal hardware
- frame your windows
- australia's largest range of designs
- angled pelmets available for corner or bay windows
- corner window? no problem! our angled pelmets are designed for corner or bay windows

Pelmets

- custom made pelmets finish your windows for a neat, streamlined look and improve insulation by trapping air at the top.
- for a softer look, choose valances or traditional swags and tails.

Cushions

- an inexpensive way to update your home style.
- add the finishing touch and inject colour into any room.
- window seat cushions can be made to fit your furniture.
- custom made in various shapes and sizes, with or without piping.
- to coordinate with curtains, soft roman blinds, and bonded blinds.

Tie Backs

- tie backs, hold backs, and tassels add decorative and functional value.
- hold curtains to the side and frame your windows beautifully.

Auditorium Curtain

- Grand stage appearance with professional drapes
- Enhances acoustics and sound clarity
- Fire-retardant, durable fabrics for safety
- Custom sizes and styles to suit any stage
- Options for manual or motorized operation
- Adds elegance and improves audience experience
- Complete setup: main drapes, side legs, borders & backdrops
- Easy maintenance with long-lasting performance

Theater Curtain

- Creates a dramatic and elegant stage presence
- Enhances sound quality and acoustics
- Fire-retardant, heavy-duty fabrics for safety
- Custom-made to perfectly fit stage dimensions
- Available in manual and motorized operation
- Includes main drapes, borders, legs, and backdrops
- Adds depth, concealment, and smooth scene transitions
- Durable with easy maintenance for long-term use
- Wide range of colors and fabrics to match any theme or décor

Hospitality Curtain

- Adds elegance and sophistication to interiors
- Creates a warm and welcoming atmosphere for guests
- Designed to handle high-traffic and frequent use
- Noise-reducing properties for a peaceful environment
- Custom branding options (patterns, colors, logos)
- Enhances ambience and guest experience
- Options for blackout, sheer, or layered styles
- Stylish designs that elevate hotel and resort interiors
- Long-lasting performance with low maintenance costs

The largest range of custom made curtains+blinds.
